Work in progress, I wanna be your light shining
Well you're my fire, burning like the morning sun
Like to be with you, not to be undermined and
When I left you, we knew we'd stay in touch

I thought I'd change, but girl it ain't no good
Shouldn't fall so fast, that habit must stop
Thinking of something new, you got me in the mood
I'm thinking of it if you like it or don't

This blond girl's dancin' in my mind
Challenging me with her blue blue eyes
I sure would like to take her home tonight
But we should take it slow.
Now it's the time to tie
Don't deny, we cannot hide
So grab my hand, like it's meant to be

Feed me, cause I'm really freakin' hungry
Let's dance to this beat, girl, oh it's pretty sweet
Now come on

I want to sing it louder
Will someone ignore me we're getting louder and
louder
Louder, make the heartbeats go harder
Make our heartbeats go harder and louder and harder
