I thought that I would be strong
Not fall upon my knees and
Wonder why I sing this song for you
my friends all laugh at me
but I just want you to

Try me and trust me
Cry me and crush me
drug me and hush me
My heart is true

Love me and hold me
Rock me and roll me
Funk me and soul me
It's only you

Take my word from this I ain't leaving you behind
I won't leave you behind to watch you fade away

Think I should try to come near you
So you'll hear these notes I'm playing
Just to let you see that this the guy
This is the one you should be dating
But I can't.

Try me and trust me
Cry me and crush me
drug me and hush me
My heart is true

Love me and hold me
Rock me and roll me
Funk me and soul me
It's only you

Take my word from this I ain't leaving you behind
I won't leave you behind to watch you fade away

Only you can make the stars light up or make them
fade away
Only you can be the remedy for everything
Only you can be the angel or the devil who brings me

down
Only you can be it all
