"Under Her Thumb"

Look this girl
She's okay
When she sings you've got to listen to her anyway
She's got a burning heart also said slow down little one
I'll go wherever I goooo

An now I see this guy
He's jammin' his guitar
He likes his own licks but he wants to hear her sing
once more
So she will open her mouth
And the words will come out
She got him under her thumb

Refr.
They know nothing's worth faking
Also in the terms that they cant promise anything
No deeds fake with just those two around
Not even with the light out

And then he'll ring the bell
She will open the door
They'll kiss each other
And he will ask for an encore
He looks her in the eyes
Said he saw a guy
With blue roses and a very large and happy smile

Refr.
They know nothing's worth faking
Also in the terms that they cant promise anything
No deeds fake with just those two around
Not even with the light out

She got him under her thumb
So long, so long
She got you under her thumb
So long, so long

Refr.
They know nothing's worth faking
Also in the terms that they cant promise anything

No deeds fake with just those two around
Not even with the light out
