"When You Love Somebody"

Visit "[When You Love Somebody](#)" on MotoLyrics.com

What about my heart
What about the feelings I feel Inside
That I can not hide
Do I just give in
Or do I pretend that she's not there
Or as if I didn't care
You can't tell me it ain't right
No you can't tell me it ain't right
No you can't tell me it ain't right
When you love someone
What am I to do
To think I could lose your love
I just couldn't bear
Didn't know it could
I never thought it would go this far
It just isn't fair
You can't tell me it ain't right
You can't tell me it ain't right
No you can't tell me it ain't right
When you love someone
I could be wrong maybe it's true
When you fall in love and you don't know what to do
Caught in the middle believe me it's real
And I just can't help the way that I feel
You can't tell me it ain't right
(What you feel Inside)
You can't tell me it ain't right
(And you just can't hide)
You can't tell me it ain't right
When you love someone
You can't tell me it ain't right
You can't tell me it ain't right
You can't tell me it ain't right
When you love someone
You can't tell me it ain't right
