Workin Together
(Maze feat. Frankie Beverly)

Everybody we've been put to the test
We been trying to change things rearrange things
And we're still in the same old mess
We've got the power to turn things around
We can keep on waiting procrastinating
And we'll drive ourselves in the ground

We've gotta start learning how to do our thing
And give eachother some respect
Got to learn to give I'm tellin you like it is
Lets not forget

Lets work together and make it happen
Lets work together and make it happen
Workin together can make us best friends
Gotta work together and watch it happen
