Afraid to stop and catch your breath?
You know I'm right behind you
I guess, some time
You'll have to rest and I'll be there
To push you through

I'm the burden you bear
On your shoulder
The voice in your head
It's time to surrender

Comprehend, I see your eyes
While you're changing, rearranging
Make believe, islands apart
I'm still there for you
I swear it

I seek the wounded prey in you
Ways to convey your anger
While you are still
In mother's womb

I am sublime in what we share
I'm a wave in the sand tracing borders
I'm God in your hands
It's time you remember

Comprehend, I am the sky
Wipe away the silver lining
Make believe, dawn never comes
I'm still there for you

I know the will it takes
To cross the bridge from here to never
I've seen a thousand pictures
Of a dream I hardly could find

Forever I will keep the memories
For only you to open
Before you lose your mind
Just before you lose
Before you lose your mind

It's easy to get lost
In this mad, mad world

If I'm hard to find
Stop the world before you're falling off
Try a second time
All I ever knew, I'd tell to you
