I can do it Yeah mayne! Now I can do it Aww this that
rollin beat man I can roll with this I can roll with this just
like ridin over that Bay Bridge Golden Gate
y'nderstandwhatlmean? Oh look at that skeezer over
there man I ain't with it [Hammer] Now now now the
drum gets deeper and the beats get stronger So take a
deep breath before you're forced under the line that
divides what's yours from mine In effect is what I am
cause I served my time Concrete solid beats topped off
with rhymes A fly posse put together by the Hammer's
mind Now the song is in effect and my soul is fed And
these are my words, that's what I said [Chorus] That's
what he said (Yo hype my posse man) Go posse, go
posse go; go posse, go posse go Go posse, go posse
go; go posse, go posse go [Hammer] M, MC's line up
and they start to boast Who's the best, who's the best,
and they all get roasted by the Hammer on the mic, by
the Hammer on the floor By the Hammer, MC Hammer,
the keeper of the door that leads to the chair where the
king of rap sits While MC's battle, in the rap pits They
go RHYME, for RHYME, and HOOK, for HOOK Thugs turn
rappers and rappers turn CROOKS Now the song is in
effect and my soul is fed And these are my words,
that's what I said [Chorus] {*instrumental
breakdown*} Dance! Use the Hammer as a weapon so
don't you worry about a thing I don't worry about a
thing, I'm goin straight up You understand me? There
they go There go that big ol' greasy [Chorus]
[Hammer] Now now now, I go to the show, I pay my
money I realized, something's funny Music's cold kickin
and the crowd is hyped But the MC on the stage, is stiff
as a pipe His hips do move but his feet don't budge He
moves across the stage like he's stuck on a rug He
needs the beat and the Hammer and the posse gettin
busy The show that we give, will make a sucker dizzy
Now the song is in effect and my soul is fed And these
are my words, that's what I said [Chorus] - to fade
