Ohhhh oooooooooo (what; s up mama)  
Baby baby baby baby (how you doin today)  
I would do anything for you (oh yea)  
I know that you got somebody else in you life (yea I do)  
But I can't help the way I feel I'm going insane without  
you here  
(Things just aint the same anymore girl)  
I know she will never let you go (so much time has  
passes)  
So I cry my self to sleep (don't cry mama)  
Thinking of what we could have been if you loved me

I remember when we started like love at fist sight I was  
crazy for your kisses and your loving every night they  
said we wouldn't make it but we still stuck it through my  
world was incomplete if I wasn't right next to you and I  
heard an said that all good things come to an end but  
you tore my life to peaces when you ran away with him.  
WHY? my mind was lost and I just couldn't understand I  
give the world for you girl ready to die rite then but  
maybe what we had was a big mistake and sometimes  
love slowly turns to hate I gave it all be cause of you  
lost it all because of you but after all this time I think I'm  
finally over you

Baby I wish that I had never let you go  
It's like I hate myself when I realized  
That I was just so blind to know  
And I know she will never let you go  
And so I cry myself to sleep (yea it's kinda late mama)  
Thinking of what we could have been if you loved me  
(don't cry)

Girl it's not that I don't love you deep inside I'll always  
will but you lost all my trust and I can never feel the way  
before you ever told me bout him you was like my  
hidden treasure my special little gem now you say you  
realize that you belong with me but the only thing I  
learned is that you will always lie to me once a liar  
always a liar that's what people say how can I trust a  
bridge and let me fall into my worst days my worst

nights like falling of the edge of life like being stabbed  
in the heart with a hundred knives they say that times  
heals the pain but I'm still waiting for that day I'm tired  
of looking through your pictures everyday but then I  
see you face to face must be that smell on your body or  
those lips I can almost taste I start to wonder if you had  
a second chance would you do the same thing to me  
again

Baby I wish that I had never let you go  
It's like I hate myself when I realized  
That I was just so blind to know  
And I know she will never let you go  
And so I cry myself to sleep (I told you baby don't cry)  
Thinking of what we could have been if you loved me  
(yea)

(I just don't know what to say girl you know after  
everything that happened I just can't start all over I'm  
sorry girl)
