Hot butter man in the spot,  
big man on the block 'til you got God,  
hard drop in your socks had you locked for the  
meanwhile in love,  
ain't no other way to be now so we see now  
he was wrong when he used them females,  
karma come around now he the rebound,  
found a dime so he picked her up,  
diamond in the rough,  
spent the grip buffin' her up,  
he's out of luck,  
she found a man with a bigger plan,  
a bigger nutshell to fall back on,  
when rainy days become thunderstorms,  
thought he bought her but he came with a bigger offer,  
now she's gone, so gone, sign the song.

Chorus:

Feels just like s stranger,  
though we met in a crowded place,  
I'm so lost without her,  
just a fool whose lost his way,

Guess it's true when they do speak about,  
love it'll eat you up and spit you out,  
it's a lesson to learn,  
when his only concern,  
was about the bridge he could burn,  
he hit Laura, Lisa, Norah, Keesha,  
cold blooded,  
whatever he said they loved it,  
but now the tables are turned and he's the one buggin',  
trippin' waitin' for the honey to call,  
truth?, she ain't think about him at all,  
he's the only Mr. Lonely at last call,  
while others have a ball,  
he's hoping he can get away from love and never fall,  
but he's gone, so gone, sing the song, c'mon.

Chorus:

Feels just like s stranger,

though we met in a crowded place,  
I'm so lost without her,  
just a fool whose lost his way.

Everybody knows,  
up under them clothes,  
goose bumps from your head to your toes,  
it's hard to control,  
that's just the way lo-lo-love goes,  
that's just the way lo-lo-love goes,  
Everybody knows,  
up under them clothes,  
goose bumps from your head to your toes,  
it's hard to control,  
that's just the way lo-lo-love goes,  
that's just the way lo-lo-love goes,

Chorus:  
Feels just like s stranger,  
though we met in a crowded place,  
I'm so lost without her,  
just a fool whose lost his way.
