verse

The lights in the night make things look bright, yet look
so dark
Daylight faded we have waited now we start
I feel over charged, maybe wasted
Get me loving you, I can take it

bridge

This is what we live for & tonight is not the one
Cause we do this every weekend & we have so much
fun
Popping bottles, pouring drinks for models let it go
Baby just let the champaign flow

Hook

Its my generation, we get it in get get it in
Rocking the nation, we get it in get get it in
On the dance floor, we get it in get get it in
oh ou o, we get it in oh oh oh

(4x) lets get it in, let's get it, It's get it

(4x) i wana party, i wana party, wana party
