[ VERSE 1 ]

The way I shine, I got splendor  
I'm the real thing and not a pretender  
You get the nerve to pop the fatal question  
I'm takin the time to make a small suggestion  
Bite or woof, you found is conveniency  
Rappers I serve without mercy or leniency  
No frame of mind, no heart, I'm relentless  
Step to me, I'm knockin you senseless  
I planted my seeds, so don't try to uproot me  
You do better tryin to straight up shoot me  
I'm not just a writer, I'm a real idealist  
It won't be long until you try to steal this  
Make your head swell till your eyes start to dilate  
Yeah sucker, you better not violate  
Not one MC in the world I'm afraid of  
Have you screamin my name like your girl when I  
slayed her  
This is the long cause I can't take a short take  
Softer than cream between pieces of ???? cake  
There's no chance of you havin a mistrial  
The very next time that I get dissed I'll  
Sit back and write a rhyme stronger than Hercules  
Funky parts, I got back and I circle these  
Put em together, fix the conjunction  
Then I'ma bust rhymes till my brain malfunctions  
Dare to degrade my name, that's perjury  
War's declared, so prepare to have surgery  
Cut you with a rhyme of such a high fidelity  
Give a kick like a roll-on and you'se as soft as a melody  
Since you're chalk my rhymes will erase ya  
Want a piece of that ass so bad I could taste ya  
Faced rappers from wack, ill, to even notorious  
You may be clever, you'll be never victorious  
I feel free now that I cleared this  
How could I fell off, boy, I helped pioneer this

[ VERSE 2 ]

Violators, I go vic em  
When I hear.. it's like "sick em!"  
I transform just like a deceptagon  
And once I step to you, boy, you're 'bout to be stepped

upon

Say rhyme after rhyme back to back, so consecutive  
Appointed rap's chairman, the highest executive  
No time to grieve, you won't believe I slapped ya  
Change the timeframe and still barely capture  
Ask em who's their dad and if they're not sayin me  
If he wasn't deceased, then he gotta be payin me  
I'm super superb, Mister Fanstastic  
No relation to drugs, but this is dope on plastic  
Don't try to play heroic and be Mr. Braveman  
My rhymes become a whip and beat you down like a  
slavehand  
If this is what you deserve I serve you with justice  
Bein sharp as a pin and still can't bust this  
Just name one time that Shan get jetted on  
If you did get light, boy, now who you think shedded  
on?  
My rhymes to your mind is like a breath to freshen up  
This is not a threat, feel free about steppin up  
Once I'm on I'll think about gettin off  
Play me closer at a post and I bet that I be lettin off  
Rap is a game that you shouldn't indulge in  
My rhymes are so good they keep my pockets bulgin  
To delight I sit back and write a rhyme like this one  
Relax, grab the buddah and proceed to twist one  
By then you might as tell your boys nice knowin ya  
The next time they see ya, I'll probably be hoein ya  
Cause I write rhymes in more than just two scoops  
And Puma's the brand cause the Klan makes Troops  
There's no competition cause there ain't no comp  
Fuck around with this and get a mudhole stomp  
I feel free now that I cleared this  
How could I fell off, boy, I helped pioneer this

[ VERSE 3 ]

This throne is mine, I'll never sell or forfeit  
So all you nooney rappers better get up off it  
Although I been chillin met the villain that's still in me  
But sayin I fell off is worse than killin me  
Marley sets the time for the rhyme to be ready by  
One-two-three (yo man, put him to beddy-bye)  
You cease to exist, I be your pitfall  
You think that this is harsh? That ain't shit, y'all  
Placed in the ground in wood as encasement  
Those that bluffed got stuffed in the basement  
Most of the time myself I kept to  
Attain the rep that you're scared to step to  
Don't assume I leave, no room to evade  
Gettin out, that I doubt, so prepare to be slaved  
You're neither here nor there, I'm number uno, priority  
Rhymes ????? shows my authority

Shant, me, Bizzy and Kane are her protgs  
Takin out ??Rush?? you know why? We know the way  
We're down with the Juice, don't you think that's virtue  
Dare to make fun of us and one of us'll hurt you  
Whoever's the closest, I mean that the nearest will  
Remove so many rappers you be callin us Clearasil  
I feel free now that I cleared this  
How could I fell off, boy, I helped pioneer this
