Ooh yeah... yeah yeah (x3)

Talking Â'bout creation
IÂ'm talking Â'bout relations
IÂ'm talking Â'bout creation
We need a combination

Gimme no slack and I bring it right back
Cos the punch I packÂ's gonna come with a smack
Cos IÂ'm like that, exactly like that
And if I slip thereÂ's no excuse for that
It gets deep but I canÂ't control
The road is steep and full of pit holes
Cheap and nasty sophistication
But all I seeinÂ' is pure creation
A solo station for civilization
Congregating in another dimension
DonÂ't ask me why I donÂ't understand it
ItÂ's just the way nature planned it

IÂ'm talking Â'bout creation
IÂ'm talking Â'bout relations
IÂ'm talking Â'bout creation
We need a combination

Ooh yeah... yeah yeah

To a hairs breath how we gonna do it
You want to look but you knew it you blew it
Out of proportion no I donÂ't think so
This thingÂ's bigger than both of us so
Drop your anchor and weigh your thoughts
Like mega ton bombs droppinÂ' on your front porch
A real summer breeze thatÂ's gonna be
When they donÂ't exist and neither do we

IÂ'm talking Â'bout creation
IÂ'm talking Â'bout relations
IÂ'm talking Â'bout creation
We need a combination (x2)

I donÂ't shirk the work come strong like Hercules

Till I seize your heartbeat and make it freeze
So you know Iâ'm authentic
And when I said that I don't let up I really meant it

Iâ'm full of beans cos I eat my greens
Iâ'm like Mr Lean I love the way you scream
I see jungles forests rivers streams
Grand Canyon mountains seas and livin' beings
Sweet dreams are made of these things
And the power to raise up my limbs
To all these gifts I wanna dedicate
Every hour I spend and every second I take

Cos Iâ'm talking 'bout creation
Iâ'm talking 'bout relations
Iâ'm talking 'bout creation
We need some combination

Ooh yeah... yeah yeah (x2)

That's the way nature planned

I'm talking 'bout creation
I'm talking 'bout relation
I'm talking 'bout creation
We need some motivation

Ooh yeah... yeah yeah
