"Can I Count On You"

You were there , the first time I stumbled
Will you be there, each time I fall
Will you care, for me forever
Darling promise you'll love me most of all.

Chours:

You can count on me, I'll be true
Do you feel the same way I do
When times get hard, will you see me thru
What I need to know, can I count on you.

Break

When the years, have turned our hair to silver
Will you still , wear that band of gold
Say you'll be here always beside me
Will I still have your hand to hold

You can count on me, I'll be true
Do you feel , the same way I do
When time get hard, will you see me thru
What I need to know, can I count on you.

What I need to know, Can I count on you..
