

Mcbride & Ride

"Just One Night"

Visit "[Just One Night](#)" on MotoLyrics.com

We had never planned to go so far
There was a fire that night in the dark
And as her hand reached out to mine
It was a feeling like the very first time
The night I spent with you

I was completely taken in
Out of passion that knows no end
It's a love so rare and true
There is nothing to compare it to
The night I spent with you

She had the face of an angel
The smile of a loving child
With just one touch of her body
She can drive this old heart wild

So if I leave this world tomorrow
Don't cry for me filled with sorrow
For, I'm a lucky man, well, I had the chance
To spend one night with you

She had the face of an angel
The smile of a loving child
With just one touch of her body
She can drive this old heart wild

So if I leave this world tomorrow
Don't cry for me filled with sorrow
For, I'm a lucky man, well, I had the chance
To spend one night with you

Oh, I'm a lucky man, well, I had the chance
To spend one night with you
