Danny

Harry

Tom...Tom

And Dougie

Welcome to your mission...

I thought I saw somethin' movin'

Eyes in the dark

Under a cloud of confusion

They're gonna tear you apart

I heard that girls are from Venus

And that guys are from Mars

But in the end they all leave us

Once they've destroyed your heart

Looking in your eyes

I can see forever

I heard somebody say

We're being hypnotized

And if it's true then

I really think this could be

The end of the world

(It's the end of the world)

The skies falling down

(The end of the world)

So guys grab the girls

(The end)

And spread the word around

I'd sell my soul to the devil

If I had one to give

The line between good and evil

Is not a safe place to live

I guess that fate drives a needle

She taking me in, oh

But as the clock reaches zero, oh oh

I really think this could be

The end of the world
(It's the end of the world)
The skies falling down
(The end of the world)
So guys grab the girls
(The end)
And spread the word around

Looking in your eyes
I can see forever
I heard somebody say
We're being hypnotized
And if it's true then
I really think this could be

The end of the world
(It's the end of the world)
The skies falling down
(The end of the world)
So guys grab the girls
(The end)
And spread the word around

Oh, this is the end of the world
(It's the end of the world)
The skies falling down
(The end of the world)
So guys grab the girls
(The end)
And spread the word around
