Hey!

I really wanna be friends girl  
I wanna wake up in your world  
I really wanna be saved  
and I hope its not too late  
I really want you to miss me  
I feel the pain when you kiss me  
I wonder why, I wonder why  
we ever called it a day

(Chorus)

oooo  
baby we're makin a movie  
oooo  
stuck in the middle and I dont know why  
oooo  
theres got to be more to the story  
like the boy gets the girl after saving the world,  
lights, camera action its good night

hey!

remember the nickname I gave ya?  
I dont wanna waste it on strangers  
I dont wanna give it away  
because it makes no sense at all

I gave you the keys to my front door  
so what are you giving them back for?  
I wonder why, I wonder why  
we ever called it a day

oooo  
stuck in the middle and I dont know why  
oooo  
theres got to be more to the story  
like the boy gets the girl after saving the world,  
lights, camera action its good night
