

McFly "We Are The Young"

Visit "[We Are The Young](#)" on MotoLyrics.com

Listen, we got a situation
They're always putting us down
We are the generation
Can't keep us underground
Is it my imagination
Or do you feel good?

We're on a one way mission
(One way mission)
And we can take it or die
(Take it or die)

We are the sunshine nation
(Sunshine nation)
Go tell the satellites
(Tell the satellites)
Is it my imagination
Or do you feel good?

What a day? What a day? What a day?
What a day? What a day? What a day?
What a day? What a day? What a day?
What a day? These are the days

Running the world
It's the time of our lives
And baby, we won't ever die
'Cause we're the young
We're alright

We gotta stop this feeling
'Cause I don't wanna live twice
We better start believing
Before we run out of time
Oh, is it my imagination
Or do you feel good?

What a day? What a day? What a day?
What a day? What a day? What a day?
What a day? What a day? What a day?
What a day? These are the days

Running the world
It's the time of our lives
And baby, we won't ever die
'Cause we're the young
We're alright
Alright, hey

Yeah

Running the world
Its the time of our lives
Baby, we wont ever die
Fight till we fall
Standing tall
Time is on our side
'Cause we're the young
We're alright

Yeah, we're alright
Yeah, we're alright
Oh, we're alright

Is it my imagination?
No
Is it my imagination?
No, no, no, no
Is it my imagination?
We're the young
We're alright, yeah
