Race me down the riverside  
To where the children play  
Far away from dying eyes  
I can show you all the way  
Searchin' for an empty shell  
Of a life already known  
The hollow people come and go  
We can make it on our own  
There's a town I have seen in a dream  
I think we should find a way to go  
It's at the end of a long and winding stream  
No one has to know  
Almost there but the hour is late  
The spirit will not die  
Almost finished, we cannot wait  
For the people asking why  
Searchin' for the town I have seen in my dreams  
I think we should find a way to go  
It's at the end of a long and winding stream  
No one has to know
