Sleeping so peaceful in my bed last night
The spirit of God filled the room
In the wee hours of the morning
He woke me up and he asked me to pray for you.
So I fell to my knees just me and the lord
We had a talk about you
Your health and your joy mean so much to him
That he asked me to pray for you.

I prayed for you in your trouble
To Jesus I called your name
I really believe you will receive your answer
For I prayed for you

The children of God from time to time
Wrestle with pain and despair
But in all situations we're lifted up
We're encouraged and strengthened by prayer.
So the next time you see me facing a trial
There's one thing you could do
It would mean so much if you'd call and say
My friend I'm praying for you.

I prayed for you in your trouble
To Jesus I called your name
Oh I really believe you will receive your answer
For I prayed for you.

Oh I really believe you will receive your answer
For I prayed for you.
