Baby won't you tell me
what your name is
Don't you know you're hotter
than the flame is
I can make U famous

The way you're lookin' in my eyes
You ain't gotta ask me what my game is
Baby you already know
Name it baby, girl you'll have it all

You're the star in this scene
Come with me and let me show you what I mean

Forget about Love
takin' about Lust
Forget about Me
talkin' about Us
Spent it all day
Party all night
Be ready to change
the rest of your life

Baby I can make u Famous
Yeah, yeah, yeah..
Baby I can make u Famous
Yeah, yeah, yeah..
Baby I can make you...

...Superstar
Everybody wanna know who you are
Everywhere we go, there's a reaction
And whenever we alone,
get the lights, camera we're in action
You put on the show
So If you want to roll
Get ready, 'cuz baby when I'm with cha
Can I take the picture?

Forget about Love

takin' about Lust

Forget about Me
talkin' about Us
Spent it all day
Party all night
Be ready to change
the rest of your life
Baby I can make you Famous

Have you walked tru the red carpet eveynight
Cameras flashing, look at your name in lights
Baby I can make you
Famous and everybody screaming out your name
Like OhhOhh They wanna love ya
Ohh there she goes, oh there she goes
They wanna love ya

Forget about Love
takin' about Lust
Forget about Me
talkin' about Us
Spent it all day
Party all night
Be ready to change
the rest of your life

Baby I can make u Famous
Yeah, yeah, yeah..
Baby I can make u Famous
Yeah, yeah, yeah..
Baby I can make you...
