Someone said, life can be a struggle
But that's what makes you strong
Along the way, whenever you're in trouble
Know I won't be long

The sun is gonna rise so don't worry 'bout tomorrow
Everybody hurts sometimes
If you let love in your heart then the world will surely
follow
Baby, love wins everytime

Now and then, I find myself watching
The world pass me by
Now and then, when I find myself falling
That's when you arise

The sun is gonna rise so don't worry 'bout tomorrow
Everybody hurts sometimes
If you let love in your heart then the world will surely
follow
Baby, love wins everytime

Love is always, never dies
Belongs to no one
It's yours and mine
Realize everyone around you
Has had their share of fear
If you try to let love surround you
Your problems disappear, your problems disappear

The sun is gonna rise so don't worry 'bout tomorrow
Everybody hurts sometimes
If you let love in your heart then the world will surely
follow
Baby, love wins everytime
