I want to stay awake now  
Stay with you 'till the break of dawn  
Don't want to go to sleep now  
For tomorrow you might be gone

[Chorus]  
If ever I see you again  
Will you ever be the same  
If ever I see you again  
Will you even remember my name

Inside I found my true love  
I don't want to be alone  
All the laughters and teardrops shared  
Memories and friends I cared for

[Chorus]

Hold on I'm almost there now  
Out of the great unknown  
Farewell and don't you worry  
Keep your faith and wait for me

[Chorus]

I want to stay awake now  
Stay with you 'till the break of dawn  
Close your eyes and go to sleep now  
I'll be watching over you  
I'll be watching over you
