"Life Support ICU"

Visit "[Life Support ICU](#)" on MotoLyrics.com

You're the switch that keeps me on
You're the part of light I like
You're the answer sustained
You're the piece that's missing

Wired to you I see my truth
Wired to you I'm freed x2

You're the pace that sets my speed
You're the darker side of me
You're the shape that takes my form
You're the vein that feeds me

Wired to you I see my truth
Wired to you I'm freed x2

Its' too late to put an end to
When I'm hooked up to you
Life Support ICU, Life Support ICU x2

You're the seizure in my breath
You're the catalytic dream
You're placebo I can't chew
To set aside my aching
