All my enemigas turn to ash  
When I break it on these putos this automatic stash  
My rhyme drop down like a one ton stone  
Gangsterass vato ese like al Capone  
Vatos disappear like I was doing magic  
Sleepin like a baby it was death in the cradle  
Can't figure out my ways some say suicidal  
The way that I react to me it's fuckin vital  
Cause all my elements ain't ordinary  
La calle veinte cinco my status is deadly  
Conejo trix am from that muerto fiend gang  
Ese all bitches rattle and I trust man  
So come into my realm my fearful domain  
It's just like a speed walk  
Carga cocaine  
U get a fuckin rush as you enter my demension  
Heroin kicks in and releives all the tention

My mind just erupted like a volcanic eruption  
Me plus a cuete equals total destruction (x2)

The price of pride ese open your eyes  
Low down conejo I be that devil in disguise  
Cause what can make you laugh can also make you cry  
Am from that big bad acHe and Simon am down to die  
Todo phyco am flako from the piedras that I smoke  
I toke and I choke it's my victims that get broke  
Fatal with the wounds to make a vato break  
Despite out that menace regardless of my faith  
On a dark stormy night when evils all around  
Echos on my voice be the only fuckin sound  
Paniciado!  
And I sense this betrayal  
This diabolic trail my canton where I dwell  
The gates have been open I'm the keeper of the gates  
In order to pass you must indicate  
I scar, a sign, the number of the beast  
En esta deminsion you will never see defeat

My mind just erupted like a volcanic eruption  
Me plus a cuete equals total destruction (x2)

(Venom)  
Vatos out there claimin to be hard  
But are unprepared and off guard  
I sent devil to you  
Upon those who fuck with me  
Wat u talk about  
Is just plain talk  
Ese lets take a walk leme review from happiness  
Mischevious I infest  
In the path of no return  
Forsure u will burn  
Ull stumble and crumble  
Then ull get disposed  
I'm outa the condado  
I'm still a malvado  
So ese cuidado  
1 2 veneneos comin for u  
3 4 u fell into a whole  
5 6 you snitched like a bitch  
7 8 I  
My flow aint giver  
I do post a trigger  
The way I illustrate  
Makes you hasitate  
My method of destruction is to eradicate  
No tolleration for the enemy dictation  
Again extermination of the enemigos that took that risk  
Now there face gots a wisp  
My venom showers with emence powers  
Undistracted  
My mind just erupted
