Tell you about the first one
It's all the same to me
Might as well be the last one
All the same to see

Everybody's sweetheart
Everybody's so hard

Tangled up for the better
It's all cracked up to be
Everybody's sweetheart
Everybody's blow hard

Any body's fool
If you stick around this time
You might get a chance to be somebody
I'll even watch the van for you while you play

Everybody's sweetheart
Any body's fool

If you stick around this time
You might get a chance to be somebody
I'll even watch the step for you along the way

If you stick around this time
You might get a chance to be somebody
I'll even watch the van for you while you play
While you play
