"Hang On"

There's peace in the valley and the scum's moving in
And I'm here in Rallee, really
But what does it matter when you're doin' well
I'm just here getting sadder, really

Hang on, hang on, brother, hang on, hang on
Hang on to your head, hang on to your heart
Hang on, hang on

There's noise from the hill side and we're all listening
In from here on the outside, really

Hang on, hang on, brother, hang on, hang on
Hang on to your head, hang on to your heart
Hang on, hang on
