Is the sun out?
Has the wind died
Or is this stillness here the calm between my ears?
And I know now why they put me here

Things were clear once 'til the clouds came
Now I don't know when they'll fall
No, I couldn't say at all
And I know now why they've kept me here

I've been paralyzed by a choice that lies
Well, inside of me
Which world to hold me now
And I believe I'm drifting

Hey, the mist surrounds me more and more
Hey wow, it swirls and it rains here
Hey wow, and I have known this all before
Hey wow, and nothing's very

Are the stars out?
Is the sun down
Or is the darkness here the calm between my ears?
And I know now why they've left me here

I've been mesmerized by a voice that cries
Well, inside of me
Too loud to hold it down
And I believe I'm drifting

Hey, the mist surrounds me more and more
Hey wow, it swirls and it rains here
Hey wow, and I have known this all before
Hey wow, and nothing's very clear
