They say you've been around  
They say you've been uptown  
Funny, I was with you  
I just can't recall  
But they say you've been around

They say you've been denied  
A chance at yourself  
They say you even tried  
To make a go  
Funny, it's been so hard  
To try and understand  
They say you've been untied  
I'll see for myself

It's a weird and wonderful time  
It's been so long I thought I'd better ask

Let's settle it now  
Isn't there something that keeps us alive  
Let's settle it now  
It's got to get better  
And better's alright
