

## Meanwhile "Silence"

Visit "[Silence](#)" on MotoLyrics.com

The silence is faded, ether, cotton, calm, fleeting,  
weightless, unique and much sought different, empty,  
intriguing It wants to ask you to listen like it has its own  
sound I know the sky is falling I know the silence is  
coming here I follow silence daily I know the silence is  
coming here The silence is faded, ether, cotton, calm,  
fleeting, weightless, unique and much sought  
different, empty, intriguing it loves to surround you  
with nothing like a mother rocks you to sleep it  
doesn't like being interrupted by noises that obstruct  
it's balm
