"Blue Sky"

Have you a heart that beats?
Have you a breath to breathe?
And have you veins that bleed?
Have you a brain that dreams?
Is it so hard to see
that we're all the same machine?
Don't we all live and die?
under the same blue sky

It is the same blue sky
that fades to the same dark night.
that shows off the same moonlight
that's chased by the same sunrise.
over this piece of ground
that spins and weighs us down.
don't we all wonder why?
under the same blue sky
