Meat Loaf
"I'll Kill You If You Don't Come Back"

From the minute I turned and laid eyes on you
I had no eyes of my own I was blind to the world-
You were to good to be true but you were something to
see-
So very young and alone and still I don't believe
The way you turned on me now where's the girl that I
knew?
I gave you somewhere to live and then somebody to
love
You gave me nothing but trouble- man, I was such a
fool

You gave me nothing at all- now let me give it to you
You taught me how to be cruel- now let me try it on you

How do you abuse me - let me count the ways
How many hours in how many days
How does it amuse you - let me count the pain
How many rules breaking how many games

How do you abuse me - let me count the ways
How many hours in how many days
How does it amuse you - let me count the pain
How many rules breaking how many games

You got your ass out of gear and your soul out of
whack
Go on and take all your stuff - don't even bother to
pack
In every way I want you out of my life -
But I'll kill you if you don't come back
I'll kill you if you don't come back

In the pit of the night you used to pull me so close
And then you'd hold me so tight and in the wink of an
eye
You used to give me it all and with a kiss in the
darkness
You'd deliver the light

And in the pit of the night I hear you laughing so loud
I know you're laughing at me oh ain't it funny and sad

The way I fell for your lies the way I fell into love
And then begged to be free

You gave me nothing at all - now let me give it to you
You taught me how to be cruel - now let me try it on you

How do you abuse me - let me count the ways
How many hours in how many days
How does it amuse you - let me count the pain
How many rules breaking how many games

You got your ass out of gear and your soul out of
whack
Go on and take all your stuff - don't even bother to
pack
In every way I want you out of my life -
But I'll kill you if you don't come back
I'll kill you if you don't come back

Somebody bless all the girls in the sand on the beach
They're dreamin' of boys and just out of reach
Bless all the cheerleaders down on the track
They're glistening like diamonds with sweat on their
backs

Bless all the girls in gangs on the street
They're looking for danger and they're holding their
piece
Bless all the girls staying late after school
They're playing with fire and they're playing it cool

And bless all the shy girls who're learning to dance
They stare in the mirror and they conjure romance
Bless all the girls who are always alone
They kneel down in prayer and they wait up by the
phone

Bless all the homecoming queens of the night
They're looking for magic in gymnasium lights
And bless all the girls who know what love is about
They try not to cry and then they try to put out

And bless all the homecoming queens of the night
They're looking for magic in gymnasium lights
And bless all the girls who know what love is about
They try not to cry and then they try to put out

Somebody bless all these girls that I never have met
But damn you and curse you after all that you've done
You're the one girl I'll never forget
You're the one girl I'll never forget

Somebody bless all these girls and everything that they
do
But damn me and curse me for still needing you
And I'll kill you if you don't come back
I'll kill you if you don't come back
I'll kill you if you don't come back
I'll kill you if you don't come back
