Come with me and bless the night
Let the darkness be your salvation
Curse the day - escape the light
Break the chain of imagination

Come with me and seize the night
Now's the time for some inspiration
Leave the day and loose the light
No taboos only new sensations...

In the shadows of the city
A hero's waiting for the call
And all the angels are waking up
And all the devils start to fall

In the shadows of the city
They're dying for a thrill
They're going out over the edge
They're moving in for the kill

You gotta curse the day: it's nothing but a merciless
light
So open up your arms and then you get down on your
knees
You suck in all the darkness and you're ready now to
seize
Seize the night
Seize the night

Dies irae, Kyrie! Libera me, Domine!
Dies irae, Kyrie! Requiem da, Domine!
Dies irae, Kyrie! Libera me, Domine!
Dies irae, Kyrie! Requiem da, Domine! [etc.]

Dies irae, Kyrie! Sanctus, Sanctus exultate!

Bless the night, before it has the chance to pass
Seize the night, you do what it takes to make it last
Bless the night, before it has the chance to pass
Seize the night, you do what it takes to make it last

Bless the night, before it has the chance to pass

Seize the night, you do what it takes to make it last...

Let your dreams out of their cages
Every passion and desire
Let your visions be outrageous
Set your fantasies on fire

Everything will be permitted
There'll be nothing left to fear
I got the magic in your body
Your inhibitions disappear

You gotta curse the day: it's nothing but a merciless
light
So open up your arms and then you get down on your
knees
You suck in all the darkness and you're ready now to
seize
Seize the night
Seize the night

Dies irae, Kyrie! Libera me, Domine!
Dies irae, Kyrie! Requiem da, Domine!
Dies irae, Kyrie! Libera me, Domine!
Dies irae, Kyrie! Requiem da, Domine! [etc.]

Bless the night, before it has the chance to pass
Seize the night, you do what it takes to make it last
Bless the night, memories collide to change the past
Seize the night, you do what it takes to make it last

Carpe Noctem...
Carpe Noctem...

Bless the night, before it has the chance to pass
Seize the night, you do what it takes to make it last...

Dies irae, Kyrie! Requiem da, Domine!
Dies irae, Kyrie! Sanctus, Sanctus exultate!..

Come with me and bless the night
Let the darkness be your salvation
Curse the day - escape the light
Break the chain of imagination

Come with me and seize the night
Now's the time for some inspiration
Leave the day and loose the light
No taboos only new sensations...
