Ooh, come a little closer it's a feeling that I can't deny  
I was weak, but I never thought I'd speak about the  
darker side  
Ooh, is that a tent? I could repent upon the side of the  
road  
Oh, but I kept on going yeah I headed for another load

I get up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground in the middle of the night  
Ohh, I testify

I was laid upon the grave by a preacher's hand I cannot  
lie  
And, I forsake the many vows I made to be with you  
tonight  
Oh, could you be the salvation 'cause I never felt like  
this before  
And, could you lend me your hand, because I'm falling  
back on the floor

I get up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground in the middle of the night  
Ohh, I testify

I get up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground in the middle of the night  
Ohh, I testify

On a road outside of nowhere, in the middle of the  
night  
Well I guess I hit rock bottom and the dawn was not in  
sight  
And a tempest made of fire, onset the sky aglow  
And a sweet young thing called out my name

And this is how it goes  
She says  
Go boy, can you hear them?  
Are you falling through the cracks in your eyes?

Go boy, can you hear them?  
Are you falling through the cracks in your eyes?  
Go boy, can you hear them?  
Are you falling through the cracks in your eyes?

Go boy, can you hear them?  
Are you falling through the cracks in your eyes?  
Go boy, can you hear them?  
Are you falling through the cracks in your eyes?

I get up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground and I'm falling back down  
Up from the ground and I testify

Up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground and I'm falling back down  
Up from the ground and I testify

Ohh, every cut that heals reveals a scar that you can  
never hope to hide  
Oh, and all the pain that you restrain keeps on building  
up deep inside  
Ooh, you think you're above it then it's you my friend  
that I implore  
You've got to walk before you run, see the night before  
dawn  
Before you pull yourself off the floor

I get up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground in the middle of the night  
Ohh, I testify

Up from the ground, yeah  
I testify

Up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground and I'm falling back down  
Up from the ground and I testify

Up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground in the middle of the night  
Ohh, I testify

Up from the ground in the middle of the morning  
Up from the ground in the middle of the evening

Up from the ground in the middle of the night  
Ohh, I testify

Up from the ground in the middle of the morning  
Up from the ground in the middle of the evening  
Up from the ground in the middle of the night  
Ohh, I testify
