When I was alone, and I'd never met you
Things just seemed more clear.
Everything would take a turn for the worse
Whenever you were... Anywhere.
My life has gone wrong cos I've known you too long
And I won't hear your pleas, so please go away.
You make me feel sick with your fantastic wit:
What more need I say?
Chorus:
Nothing at all will change my mind
How could I have been that blind?
No one will ever make me see
Any point in letting you near me
It makes me feel glad that you were a Fad
Now I'm devoid of you
I never wished for any of this
There's only one thing left to do...
