[Conrad:]

I shall lay my ear to the wall of this old room that was  
Always disconnected by them, the Lords of Seventeen  
Day by day I come to this place, a little smile on my  
face

As long as nobody knows my hidden room here  
belongs

To the young lady, she plays on her piano and stays

In all her ignorance, leading me in my dual mind  
Then, I'm loosing contact with ground, when listening  
to the sound

That leads me into a world of never being a lonesome  
Man that I ever was will disappear by the first  
Notes she's playing, while leading me in my dual mind

I, I will ever return

To desires that burn

In the rooms of my heart feels empty

I won't give up and I try

Long before that I die

We'll unite in my dark divided mind

[Conrad & Jeurian:]

Hear the music play the game

Overture without a name

It's leading me in my dual mind

Reaching all the world in trance

Following the epic dance

She leads me to...

[Conrad:]

Every time you reach out your hand to touch the key  
with a blend

Of pianissimo and a kind of passion, I wait until I enter  
my quest

With all the moments that passed

To see my lady again in a beautiful land

So please,

Don't leave me here all alone, cause every time you are  
gone

I feel afraid to be left and ask myself if you won't or

Will return to my greed and let me hear what I need  
To end my journey inside my divided mind

Tell me will I ever return  
To all desires that burn  
Show me will I ever return  
My desire burns

[Conrad & Jeurian:]  
Hear the music play the game  
Overture without a name  
It's leading me in my dual mind  
Reaching all the world in trance  
Following the epic dance  
She leads me to...  
Leading in my dual... mind
