I've played with love and been burned every
Time. and that's the way it goes
As i lean close to you. it's reaching out that
Rhythm makes me sick. with head in hands and
Hands on hips. you'll never
Know what i need
Cause no words pass
Through tightened lips
I don't ever make it easy to
Lay between my hips

It's just a small thing
Calling down the rain
I've tried to make it easy
To live inside my pain
I scoff at love and then sweat through the night
'cause i like what i see
I love the laugh torn from your side
Pressing on top of me

I try to make it easy
To live inside my brain

It's just a small thing
Calling down the rain
I've tried to make it easy
To live inside my pain
It's just the small
Things that bring
You to mind. a
Fractured smile and
Butterfly kiss. so kiss
Me now and kiss
Me sweet. i've never
Know it to be quite
Like this. i try to
Make it easy to live
Inside your kiss
