A broken state of mind  
The damage can't not be repaired  
You call yourself a friend [x3]  
*What scheme are you behind?*  
You're responsible again [x4]

*Everything was great  
Until you showed your face  
Just a hollow shell remains  
And a broken state of mind*

*Eyesight is turning to black  
Blinded by your selfishness  
Once again the victim [x3]  
Once again the one to suffer  
So disappointed in you [x4]*

*Everything was great  
Until you showed your face  
Just a hollow shell remains  
And a broken state of mind [x4]*

*The room was filled with laughter and the laughter  
aimed at me  
The room was filled with laughter and the laughter was  
aimed at me,  
Not the shame, not the shame, and a broken state of  
mind*

*Conscience cracking under strain  
Stressed beyond the point of repair  
You call yourself a friend [x4]  
I'm so disappointed in you [x12]*
