Wait for me, and I will wait for you
Wait for me, and I will see that both our dreams come
true

While I look at the stars tonight
I think of you and I smile
But a smile doesn't seem to satisfy
All I want, All I want is you by my side

Distance has never been such a thief
I may smile but I'm dying underneath

While I look at the stars tonight
I think of you and I smile
But a smile doesn't seem to satisfy
All I want, All I want is you by my side

I may smile...

While I look at the stars tonight
I think of you and I smile
But a smile doesn't seem to satisfy
All I want, All I want
All I want is you by my side
All I want is you
