The backlash has started, but we ain't fucking  
laughing, take a look at how  
Much has changed, there ain't much to smile about.  
We've done four years of  
Begging and a lot longer struggling, well ain't it about  
time, we took back  
What is ours.  
Punk formed as a movement to set right what was  
wrong: the opposing side said  
No, we're right, you're wrong. They controlled our  
bands with money and they  
All sucked off our sweat, well that's the fucking lesson  
we never must forget.  
The time moved on and rebellion just seemed to be a  
bore, as one by one the  
Leaders collapsed, the money bought the whore, time  
and time again we heard  
New promises were made, but words was all it was, the  
action was delayed.  
They tried to salvage something, but the mistake  
already done, with C.B.S. and  
E.M.I. backing what went on. Those tears upon the  
stage, we heard they all  
Came from the heart and if we all stood together, it  
would just be the start.  
Well the start just never happened, as our hopes ran  
down the drain, now  
Take a good look, you'll see it's happening again, the  
punk movement once  
Strong, once offering real change, is searching fame  
and fortune, and that  
Just ain't the fucking way.  
Punk is still our movement, we can put right what is  
wrong by learning to say  
No, we're right, you're wrong, fuck their fucking future  
it means oppression  
War and hate it's time to turn the tables around and  
recreate the state.
