Don't tell me you're done for  
Don't need to hear you're done for  
You can tell me what you are running from  
I need you more than you need you  
I can see you're really really running  
Can I ask you where you gonna run to  
And you think your really really funny  
Well I don't think your funny as you do

We all feel like we're breaking sometime  
But I won't give you up tonight

Stay awake, stay awake  
Survive  
I've got nineteen stars that I  
Give your name tonight

I wanna scream, wanna scream your name.  
Star light, star bright can save  
You're my wish tonight

Don't tell me it doesn't matter  
I'll tell you what matters  
Bare feet in the summer  
Open windows at night  
You think that no one needs you

You have nothing to see through  
Well I needed you.  
Don't I count?  
Lets fight.

Show me anger  
Fierce fists clutching onto air.  
Show me anthing.  
Just show me you care.

Stay awake, stay awake  
Survive  
Cause I've got nineteen stars that I  
Give your name tonight

I wanna scream, wanna scream your name  
Star light, Star bright can save  
You're my wish tonight

No one can catch me  
The way that you catch me  
The way that you keep me when I'm out of sight  
What if I need you  
What I can't see you  
I'm running out of life

No one can catch me  
The way that you catch me  
The way that you keep me when I'm out of time  
What if I need you  
What I can't see you  
I'm running out of life

Please  
Stay awake, stay awake  
Survive  
I've got nineteen stars that I  
Give your name tonight

And I wanna scream, wanna scream your name  
Star light, star bright can save  
You're my wish  
You're my wish my wish  
You're my wish tonight
