Na na na na na na Hey oh yeah na na lets go well I'm  
set I'm ready but not so steady if you want me call me il  
be wherever you wanna be but you won't be there and  
why do you always change your breathing air just live  
and like your life it's perfect the way it is and whenever  
you feel like letting go ooh oh don't you know  
At night we go to dance without you cos you can't  
dance I gave you dance lessons I even said the words  
"time to dance" Na na na na na na so call my anytime  
of the day cos you know every time you get your way  
but only with me we love each other so why don't we  
keep it but you yeah you need me but there's just one  
thing you can't do dance cos I know at night we go to  
dance without you cos you can't dance I gave you  
dance lessons I even (I even) said the words time to  
dance  
Na na na na na na you know your my dreams I never  
have night mares cos I dream about you and if you feel  
like goin' il just say "that's not ok" cos everybody knows  
at night(at night) we go dancin'without you cos you  
can't dance (no can't dance no) I even gave you  
dancee lessons I even said the words "time to dance)  
Oh oh oh yeah hey I did time to dance yeah!
