I wrote you a letter  
Saying how I couldn't do better  
And that's when you told me that you weren't over me  
And now I can't believe

What I heard today and that you would say  
All those things because you felt bad for me  
But really truly and honestly

Were over it's done  
You've hit the home run because I  
I'm never gonna miss you  
And I can see that that's who you wanna be  
So go ahead and be him without me

I started to realize  
All the effort put into us was on one side  
And now I can't believe

What I heard today and that you would say  
All those things because you felt bad for me  
But really truly and honestly

Were over it's done  
You've hit the home run because I  
I'm never gonna miss you  
And I can see that that's who you wanna be  
So go ahead and be him without me

One day you'll come back wanting me  
But guess what? I won't be there  
Because you messed it up, you blew it up  
And I really don't care

Were over it's done  
You've hit the home run because I  
I'm never gonna miss you  
And I can see that that's who you wanna be  
So go ahead and be him without me
