I keep on saying that I'm done with you  
But no matter how I try  
We're never through  
My friends are tired of hearing 'bout you  
And I'm tired  
Tired of it too

The words you say are never true  
Don't know why I even talk to you  
Seems all you do is make me blue  
And like a hot rock  
I need to drop you  
(I need to drop you)  
Drop you

The happy times are long gone  
I'm full of stories how you done me wrong  
I liked it better when I believed you  
Your beautiful lies that I believed were true  
The ones that made me fall in love with you  
The words you say are never true  
Don't know why I even talk to you  
Seems all you do is make me blue  
And like a hot rock  
I need to drop you  
(I need to drop you)  
Drop you

I torture myself by talking to you  
Set me free by telling the truth  
Please baby just tell the truth

The words you say are never true  
Don't know why I even talk to you  
Seems all you do is make me blue  
And like a hot rock  
I need to drop you  
(I need to drop you)  
Drop you
