As you know, I was the king of rock'n roll
I played guitar with my soul
But I just can't remember how to do it now
I'll sing for you just a little bit of Ska
Chorus
I'll be the king of Ska

As you can see
Something is changing around me
Even my smile is changing style
Now I know I remember what to do because
I've got the groove which is making me move

Chorus

Till the end I was the famous one man band
But they have changed my smile
They have changed my style
