You take me in again  
Undercover  
Skin to skin  
And I am drowning in the way you move  
You ask what's on my mind  
Slowly running out of time before she calls and you say  
"I do"

And nothing's gonna stop me now  
And no one's gonna hold me down  
There's nothing left to fight for  
She'll make you a beautiful wife

Just say you've had enough  
Raise your hand I'll call your bluff  
You seem to forget all the games I play  
Don't take a chance on me  
Wear your heart all on your sleeve  
You know I'm never gonna get it right

And nothing's gonna stop me now  
And no one's gonna hold me down  
There's nothing left to fight for  
She'll make you a beautiful wife

And no one says forever like you do  
And no one says forever quite like you  
I almost believe  
I almost believe

No use in all your lies  
Candy-coated alibis for where you go and who you see  
Homecoming beauty queen  
She's the star in all your dreams  
But does she know your heart belongs to me

And nothing's gonna stop me now  
And no one's gonna hold me down  
There's nothing left to fight for  
She'll make you a beautiful wife  
She'll Make You
