Sometimes my dreams were shattered
I don't believe that it could make me feel sore
That stop me from whatin' more

You showed me the way
You took the lead
What could this be an angel beside me
You showed me everythin' I want to see

And now I can't keep myself believin'
I shouldn't stop fro dreamin'
I'll keep on reachin' out
I'll dream that's right for me
I'll dream that's you and me together be as one
Oh... in a dream

So here are fantasies are all real

You showed me the way
I thanked god for this day we met

Repeat chorus

Oh in a dream...
