[Hook]

They say the game change  
But I just say the players do  
I've been on this corner  
Up enough for like a day or two  
A lot of shit done happened  
I'm just happy that I made it through  
Or that I'm making it  
Fuck what you make of it,  
Oho, whoa  
Big bank my convo, big bank my convo  
Oho, whoa  
Big bank my convo, big bank my convo

Big joints of that green bra  
Doing shows with my team whoa  
Old school I might take that  
Fuck you think that I lean for  
Push button them screens for  
Diamonds all on my AP  
Fuck you know about long flights  
To Beirut, that's crazy  
All them long nights, they paying off  
All them cold days that I ain't take off  
All them times that I ain't like the price  
But I bought it all  
Damn, shit I grew up where them killers play  
Where they put one in the head like will I live today?  
I just chill in the best you can buy  
And keep it cool cause they say if you stress you can  
die  
Word, what you gonna do when that pressure apply  
Just from my argument and you hear that metal go rat!  
Go rat!

And I ain't slept in days, but a nigga getting paid  
I fuck the world until I came  
Bad bitches give me brain  
All I smoke is that merry, merry  
I ain't into no charges, though  
Told my bitch when I'll make a mill  
She can take her ass off...  
New stamps in my passport  
Old checks from my last tour  
Rolled it up and I smoke one  
Play left, plays pair more  
He call the more beast mode  
Drinking henny straight I got 3 hoes  
Got 2 chainz... came a long way from them bobos man  
Them dark nights, had a nigga on...  
Stole box from the same niggas we had 4 whips came  
from...  
And now I'm fucking with the Taylors  
Warrup Chevy rolling paper, we gonn smoke one for  
the majors
