I am the one you're waiting for
The only one that can get you, can get you on the
dancefloor
Follow me tonight, don't wanna lose your sight
Keep your eyes in mine, so that the moon will shine

Do you wanna drink some more, again and again
The summer is calling and...
Do you wanna dance some more, again and again
I am here to show you who I am

Whoa, baby it's Saturday night
Take me in your own dimension
Whoa, baby there's no need to lie
Say that it's the right selection

You are the one I'm looking for
The only one that can turn me on, turn me on for sure
Can you feel the beat inside? it makes me feel so right
You take my breath, but I survive, I'm still alive

Do you wanna dance some more, again and again
I am here to show you who I am

Whoa, baby it's Saturday night
Take me in your own dimension
Whoa, baby there's no need to lie
Say that it's the right selection

Whoa-oh-oh

Whoa, baby it's Saturday night
Take me in your own dimension
Whoa, baby it's Saturday night
Take me in your own dimension
Whoa, baby there's no need to lie
Say that it's the right selection
