"Independence Day"

Visit "Independence Day" on MotoLyrics.com

I'm not thinking about you
I'm happy without you
No matter what they say
This is my independence

They say its a small small world
But your a million miles away
Wishing on that same bright star
I shouldn't wish my life away

Without you the night still falls
And i know the sun will rise
The truth is that life goes on
True as oceans pull the tide

We've got forever baby
We just haven't got tonight
Oh baby

I'm not thinking about ya
I'm happy without ya
No matter what my friends say
(no matter what they say)
Your not my one and only
I ain't feeling lonely
This is my independence day
My independece day

I guess we've made mistakes
And you just have to live and learn
Cuz i've got no regrets
It doesn't mean that I don't burn

The sounds of times still fall
No matter what they say
Too many sacrifice
I can't dwell on yesterday

We've got forever baby
We've got as long as it feels right
Oh baby

I'm not thinking about ya
I'm happy without ya
No matter what my friends say
(no matter what they say)
Your not my one and only
I ain't feeling lonely
This is my independence day
My independece day

Hey, my independence day

No matter what comes my way
I'm gonna live for today
This is my independence day

Aaahhh yea

I'm not thinking about ya
I'm happy without ya
No matter what my friends say
(no matter what they say)
Your not my one and only
I ain't feeling lonely
This is my independence day
My independece day

No matter what comes my way
My independece day

Wishing on that same bright star
(I'm not thinking about you)
I shouldnt wish my life away, wish my life away
(I'm happy with out you no matter what they say)
They say it's a small small world,
They say its a small small, small small world
(this is my independence)

I'm not thinking about ya
I'm happy without ya
No matter what my friends say
(no matter what they say)
Your not my one and only
I ain't feeling lonely
This is my independence
