I heard them say love  
Was a wonderful things  
Something you can't  
Hide on a shelf

But tome they no longer  
Have to explain  
Because I know for myself

He awakens each morn  
With a smile on his face  
When a boy is in love  
And the world to him  
Is a beautiful place  
When a boy is in love

He's up and he's gone  
There's no breakfast for him  
Cause he lives on the love  
Of his sweet little gem

The day's not through  
Though it's not very long  
Before he must talk  
To his girl on the phone

That's how it is  
When a boy falls in love

His girl's voice on the phone  
Brings him wondrous delight  
When a boy falls in love  
If there's been any darkness  
It all fades from sight  
When a boy is in love

He can hardly wait  
Til the moment they meet  
For he knows when he sees her  
His day will be complete

When they're finally alone  
And he kisses her lips  
The world sings a love song  
And his heart turns a flip

That's how it is  
When a boy falls in love

At the end of the day  
The time comes, they must part  
The strings of regret  
Tear away at his heart

And late in the night  
As he sleeps on his bed  
Visions of her sweet charms  
How they dance through his head

And before you know  
He's buying a ring  
To capture forever  
That sweet darling thing

That's how it is  
When a boy falls in love  
Oh, that's how it is  
When a boy falls in love

Woah, oh, that's how it is  
When a boy falls in love  
Oh, that's how it is  
When a fella falls in love
